## WHAT IS THIS PRODUCT?

OBJECTIVES	<p>The General Fund is an investment vehicle which falls under the General Assets of the Company, and the rights of which are expressed in euros.</p> <p>The General Fund offers a capital guarantee on behalf of the Insurer at all times. According to the investment date, access to the General Fund is subject to special conditions relating to the guaranteed minimum return and the period during which this minimum rate is guaranteed.</p> <p>These conditions are set by the Company, communicated to you upon subscription, and confirmed in the endorsement relating to investment of the premium in the General Fund.</p> <p>This vehicle is made up of government bonds, corporate bonds, equities and other diversification assets.</p> <p>Investments in this vehicle benefit from a capital guarantee at all times. The Insurer may propose a guaranteed return over a specified period and, if applicable, a share in profits depending on the performance of the vehicle and the level of management fees.</p> <p>The guaranteed minimum rate may be zero, which means that you benefit from a capital guarantee on your investment, and that the entire return which you will receive, if applicable, will be in the form of a share in profits.</p>
INTENDED RETAIL INVESTOR	<p>This vehicle is intended for natural persons residing in the United Kingdom and legal or similar entities (trusts, etc.) established in the United Kingdom that wish to invest their money safely and benefit from a capital guarantee at all times.</p>

## WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 1 out of 7, which is the lowest risk class. In other words, the performance of the financial markets should not affect the amount of your investments.

This table shows the money you could get back over the recommended holding period, under different scenarios, assuming that you invest 10.000 €.

The different scenarios show how your investment may perform. You can compare them with the scenarios of other products.

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the potential profit participation and how long you keep the investment/product.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

## WHAT ARE THE COSTS?

### Costs over Time

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the return you might get on your investment. The total costs include one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the investment vehicle itself for three different holding periods. The figures assume you invest 10 000 EUR. The figures are estimates and may change in the future.

The person selling you or advising you about this investment vehicle may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

INVESTMENT 10 000 EUR	IF YOU CASH IN AFTER 1 YEAR	IF YOU CASH IN AFTER 2 YEARS	IF YOU CASH IN AFTER 4 YEARS
TOTAL COSTS *	0.00 EUR	0.00 EUR	0.00 EUR
IMPACT ON RETURN (RIY) PER YEAR	0.00%	0.00%	0.00%

\* Total costs are based on the initial down payment only. They include support costs and do not include social or tax levy or profit sharing. The above calculations are based on the assumption of an moderate scenario.
