

SPECIFIC INFORMATION DOCUMENT

C LIFE STABLE

PURPOSE

This document comes with the Key Information Document and provides key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

INVESTMENT VEHICLE

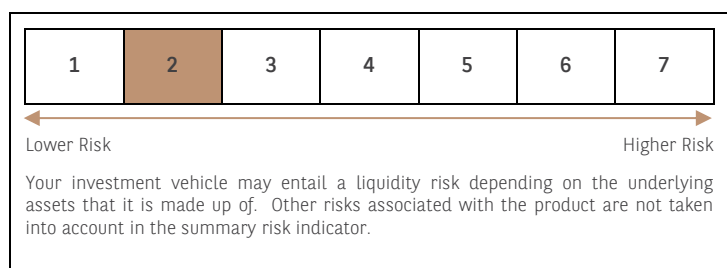

Investment vehicle:	C LIFE STABLE
Name:	Cardif Lux Vie
Website:	www.cardifluxvie.lu
Telephone:	(+352) 26 214 - 1
Supervising authority:	Commissariat aux Assurances (CAA)
Document Date:	15/10/2018
Manager:	BIRDEE (BNP Paribas Group)

You are about to purchase an investment support that is not simple and may be difficult to understand.

WHAT IS THIS PRODUCT?

OBJECTIVES	C Life Stable - EUR gives you exposure only through UCITS to low-risk investments: money market, government and corporate bonds and, on a secondary basis, corporate equities. The characteristic feature of this Internal Collective Fund is prudence: the risk level is directly managed in accordance with the Financial Manager's investment rules, and therefore will not exceed the maximum threshold set by the Birdee investment committee. The Fund will only invest through UCITS, and will not invest in Alternative Funds, unlisted funds or derivatives.
INTENDED RETAIL INVESTOR	C Life Stable targets investors who want to delegate the financial management of their savings to professionals. It is denominated in Euro. The ideal investment horizon is 2 years

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

The value of this investment vehicle is not guaranteed but is subject to upwards or downwards fluctuations depending in particular on how the financial markets perform.

PERFORMANCE SCENARIOS

INVESTMENT 10 000 EUR			
SCENARIOS		1 YEAR	2 YEARS (RECOMMENDED HOLDING PERIOD)
STRESS SCENARIO	What you might get back after costs	8 827.53 EUR	8 999.23 EUR
	Average return each year	- 11.72 %	- 5.14 %
UNFAVOURABLE SCENARIO	What you might get back after costs	9879.09 EUR	9936.98 EUR
	Average return each year	-1.21%	-0.32%
MODERATE SCENARIO	What you might get back after costs	10188.91 EUR	10379.56 EUR
	Average return each year	1.89%	1.88%
FAVOURABLE SCENARIO	What you might get back after costs	10502.25 EUR	10835.45 EUR
	Average return each year	5.02%	4.09%

This table shows the money you could get back over the recommended holding period, under different scenarios, assuming that you invest 10.000 EUR.

The different scenarios show how your investment may perform. You can compare them with the scenarios of other products.

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

WHAT ARE THE COSTS?

Costs over Time

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the return you might get on your investment. The total costs include one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the investment vehicle itself for two different holding periods. The figures assume you invest 10 000 EUR. The figures are estimates and may change in the future.

The person selling you or advising you about this investment vehicle may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

INVESTMENT 10 000 EUR	IF YOU CASH IN AFTER 1 YEAR	IF YOU CASH IN AFTER 2 YEARS
TOTAL COSTS	95 EUR	194.47 EUR
IMPACT ON RETURN (RIY) PER YEAR	0.95 %	0.95 %

The total costs are associated with the investment vehicle only. Please check the key information document to consider the costs associated with your product.

Composition of Costs

The table below shows:

- The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.
- What the different cost categories mean.

ONE-OFF COSTS	Entry costs	0.00%	The impact of the costs you pay when entering your investment. This is the most you will pay, and you could pay less. The impact of costs are already included in the price This includes the costs of distribution of your product
	Exit costs	0.00%	The Impact of the costs of exiting your investment when it matures.
ONGOING COSTS	Portfolio transaction costs	0.05%	The impact of costs incurred at the time of purchase or sale of the underlying investments of the products.
	Other ongoing costs	0.90%	The impact of costs charged each year for the management of your investments.
INCIDENTAL COSTS	Performance Fee	0.00%	The impact of performance fees.
	Carried interests	NaN%	The impact of carried interests..
